Required Narratives

How does the LEA plan to use funds to implement prevention and mitigation strategies in order to continuously and safely operate schools for in-person learning?

* Shelby County will use funds to provide health and medical services and supplies to its school nurses and add 2 new floating nurses to help fill in at school that have high needs. Shelby County is still using ESSER I funds to provide cleaning and sanitation supplies for school to stay clean and disinfected. Shelby County plans to use some funds to do a system wide cleaning of all internal air ducts and attach airborne virus killing equipment in the newly cleaned ducts. Shelby County also plans to install motion activated, touchless water faucets to eliminate more touch points where the virus can transmit.

How will the LEA ensure that the evidence-based interventions will address the academic impact of lost instructional time and ensure that those interventions respond to the academic, social, emotional, and mental health needs of all students including underrepresented student subgroups (each major racial and ethnic group, children from low-income families, children with disabilities, English Learners, gender, migrant students, students experiencing homelessness, and children and youth in foster care) and those who are particularly impacted disproportionately by the COVID-19 pandemic?

* All students will be administered a diagnostic assessment to determine present level of performance. Elementary students will be assessed using the program i-Ready and secondary students will use the program iXL. Students will be assigned an individualized learning path to provide an instructional program tailored to each student's unique academic needs. The district will also review the number of Chromebooks available for students to use to run the programs.

How will the LEA comply with the requirements of section 427 of GEPA (20 U.S.C. 1228a)?

The description must include information on the steps the LEA proposes to take to permit students, teachers, and other program beneficiaries to overcome barriers (including barriers based on gender, race, color, national origin, disability, and age) that impede equal access to, or participation in, the ESSER III program.

* All elementary teachers received professional development training in iReady and secondary teachers received training in iXL as well as other instructional programs they will use to fill achievement gaps. Any student in grades K-3 scoring below the 20 percentile will also receive extra intervention, such as an additional program to intervene for students with characteristics of dyslexia, or they may be invited to attend before or after school tutoring at the district's expense. A Concern Protocol was implemented for teachers to report any concerns they may have to their local school principal and the concern was addressed by the HR division to see how the district could provide accommodations to minimize or alleviate the concern. The Board's process of cleaning and disinfecting will be free of discrimination and provide equal access to cleaning supplies, PPE, and any Substitutes needed by the school district. The decisions for allocating funds to schools in need will be based on strictly the size of the buildings and the number of employees and students based on each campus. In the event any barriers arise, the Board will make every effort to handle and rectify these issues as soon as possible.

How will the LEA actively monitor their allocations, conduct interim audits to ensure an appropriate application of funds, collect and manage data elements required to be reported, and report this information to the community?

* Shelby County Board's accounting department will compare all purchase orders to the approved budget and only authorize valid, previously approved items in the budget. The CSFO will monitor procurement standards. The Accounting Department will review monthly budget reports and share with senior management to ensure proper spending of the funds. Monthly check registers are available to the public on its website and the budget will be shared to the Board and the general public and it's required public hearings for the next fiscal year budgets.

How will the LEA meaningfully engage with families and communities throughout the life of the ARP ESSER and other relief funds?

* The Board will share the plans of the ESSER funds with the community in it's annual budget meetings and provide documents

as requested to any member of the community or news outlet.

LEA Reservation to Address Loss of Instructional Time

ARP ESSER State Reserve Allocation to Address Loss of Instructional Time

The ALSDE is providing a State Reserve allocation to LEAs to address the loss of instructional time through the implementation of evidence-based interventions and ensure that those interventions respond to students’ social, emotional, and academic needs and address the disproportionate impact of COVID-19 on underrepresented student subgroups.

For the ARP ESSER State Reserve Allocation, the following interventions are allowable:

1. Summer Learning & Summer Enrichment Programs
2. Comprehensive After-School Programs
3. Other – See Intervention box C for more details.

Required Narratives

Provide a description of the evidence-based program(s) (including partnerships with community-based organizations) the LEA has selected to use with the ARP ESSER State Reserve, and how the LEA will address the disproportionate impact of COVID-19 on certain groups of students, including each major racial and ethnic group, children from low-income families, children with disabilities, English Learners, gender, migrant students, students experiencing homelessness, and children and youth in foster care.

* Shelby County will use Edgenuity as it's credit recovery tool and review interim assessments to assign student to higher tiers of Intervention when needed. Shelby County is using ARP funds to target intervention and learning loss prevention with ESL staff in communities with higher percentages of English Language Learners.

Indicate the data sources the LEA used to identify the students most in need of the program(s) and the extent to which the LEA will evaluate the impact of the program(s).

* Shelby County will identify students through it's data dashboard and it will be monitored by its Accountability and Testing Supervisor

Using the allocation from the ARP ESSER State Reserve, explain how the LEA will identify and engage

- 1) students who have missed the most in-person instruction during the 2019-2020 and 2020-2021 school years; and
- 2) students who did not consistently participate in remote instruction when offered during school building closures.

* Shelby County will use its interim assessments to target students that are in the highest need of intervention and catching up on learning loss.
