

Inverness Elementary School

2018-2019 Continuous School Improvement Plan

At-A-Glance

Reading

A 3% increase of ALL STUDENTS will demonstrate proficiency in Reading as measured by Scantron Performance Series.

Activity 1-Walk to Learn

Intentional intervention based on data including summative and formative assessment in order to meet individual student needs.

Activity 2-Writing Improvement

Teachers will conference with students about their writing to ensure students are implementing strong vocabulary and applying phonics skills correctly in their writing samples.

Math

A 3% increase of ALL STUDENTS will demonstrate proficiency in Math as measured by Scantron Performance Series.

Activity 1-Number Talks

Teachers will guide students through number talks which are purposeful discussions in order for students to make sense of mathematics.

Activity 2-Math Word Problems

Teachers will model a variety of strategies in order for students to demonstrate, practice, and apply their knowledge of problem solving.

Culture

Teachers will collaborate to deepen their knowledge and improve instruction as measured by end of the year dialogue documentation.

Activity 1-PLC

Teachers will meet in PLCs to review student work and current data in order to update student Watchlists and plan for effective instruction and intervention.

Activity 2-Peer Observation

Teachers will observe vertical partners and an additional peer to deepen content knowledge and improve instructional strategies through reflection.
